

La Misión

Gran Reserva

CARMENÈRE

D.O. PIRQUE, MAIPO VALLEY

2012

Chile is the only country that grows Carmenère vines engrafted. This vine stock originated from Bordeaux, from where it has almost completely disappeared, has been rediscovered in Chile a few years ago.

Our Carmenère vineyards are located in San Luis de Pirque, in the Maipo Valley.

MOUNTAIN GROWN WINES OF WILLIAM FÈVRE CHILE

La Misión

Gran Reserva

Carmenère

2012

89% Carmenère

11% Cabernet Sauvignon

Winemaking note

Our Carmenère wine is elaborated in little tanks in which are held 6,000 to 7,000 kilos of grapes. The pre-fermentation lasts four days in order to obtain optimum extraction of color and increase the fruit character. The fermentation process involves a pumping over twice a day, and temperatures are strictly controlled and remain under 30°C. Post fermentation maceration lasts three weeks, to achieve good levels of tannins. It is followed by a malolactic fermentation, and then is aged twelve months in French oak barrels from various forests and makers, allowing a greater complexity.

Tasting note

Living up to its expectation of a fine aging wine, this Gran Reserva Carmenère from the 2012 vintage is even more surprising! It possesses an intense purple color and on the nose it has a great complexity of red pepper (characteristic of this grapes,

particularly enhance this vintage), wild black berries with aromas of earth, smokey wood and violets. On the palate, the attack subtle and generous, the tannins are velvety and persistent. The qualities of this well structured Carmenère are enhanced with several years of aging in the bottle.

Technical information

- Harvest date: *Last week of April 2012*
- Harvest method: *Manually*
- Production: *37,274 bottles*
- Alcohol degree: *13.4% Vol.*
- Residual sugars: *3.53 g/l*
- pH: *3.6*
- Total acidity: *3.48 g/l*
